

SIDE EVENT

AGROFORESTRY CONCESSIONS:

An innovative approach to reduce deforestation and improve livelihoods in the Peruvian amazon

Wednesday, May 04, 2022

17:30 h. - 19:00 h. KST | 3:30 h. - 5:00 h. PET

This side event will discuss the opportunities and challenges of deploying the new Agroforestry Concessions (AC) system in Peru to improve livelihoods and restore forest lands, as an example of forest policy that aligns key economic development, climate change and biodiversity objectives in a single instrument. Furthermore, the event will discuss the innovative approach of the AgroFor Project, currently implemented by GGGI, ICRAF and SPDA, to support the Peruvian Government in creating the necessary conditions for the successful implementation of AC.

PROGRAM

- 17:20 h.** | **Welcome participants**
- 17:30 h.** | **Opening remarks**
